

# About Us

## Integrated forward thinking

Aquarius IT are a specialist road transport software company that provides a full range of driver and vehicle compliance solutions that integrate within the ClockWatcher Elite product to facilitate more efficient and smarter working practices.

Advancements in technology have allowed the software to become a fully integrated paperless solution. We can help you manage operator and driver compliance and your company's vehicles and assets.

## Digital Solutions

As road transport software specialists with significant knowledge of the legislation, creating workable digital solutions for customers is Aquarius IT's key strength and is why ClockWatcher Elite continues to be the software of choice for operators, large and small.

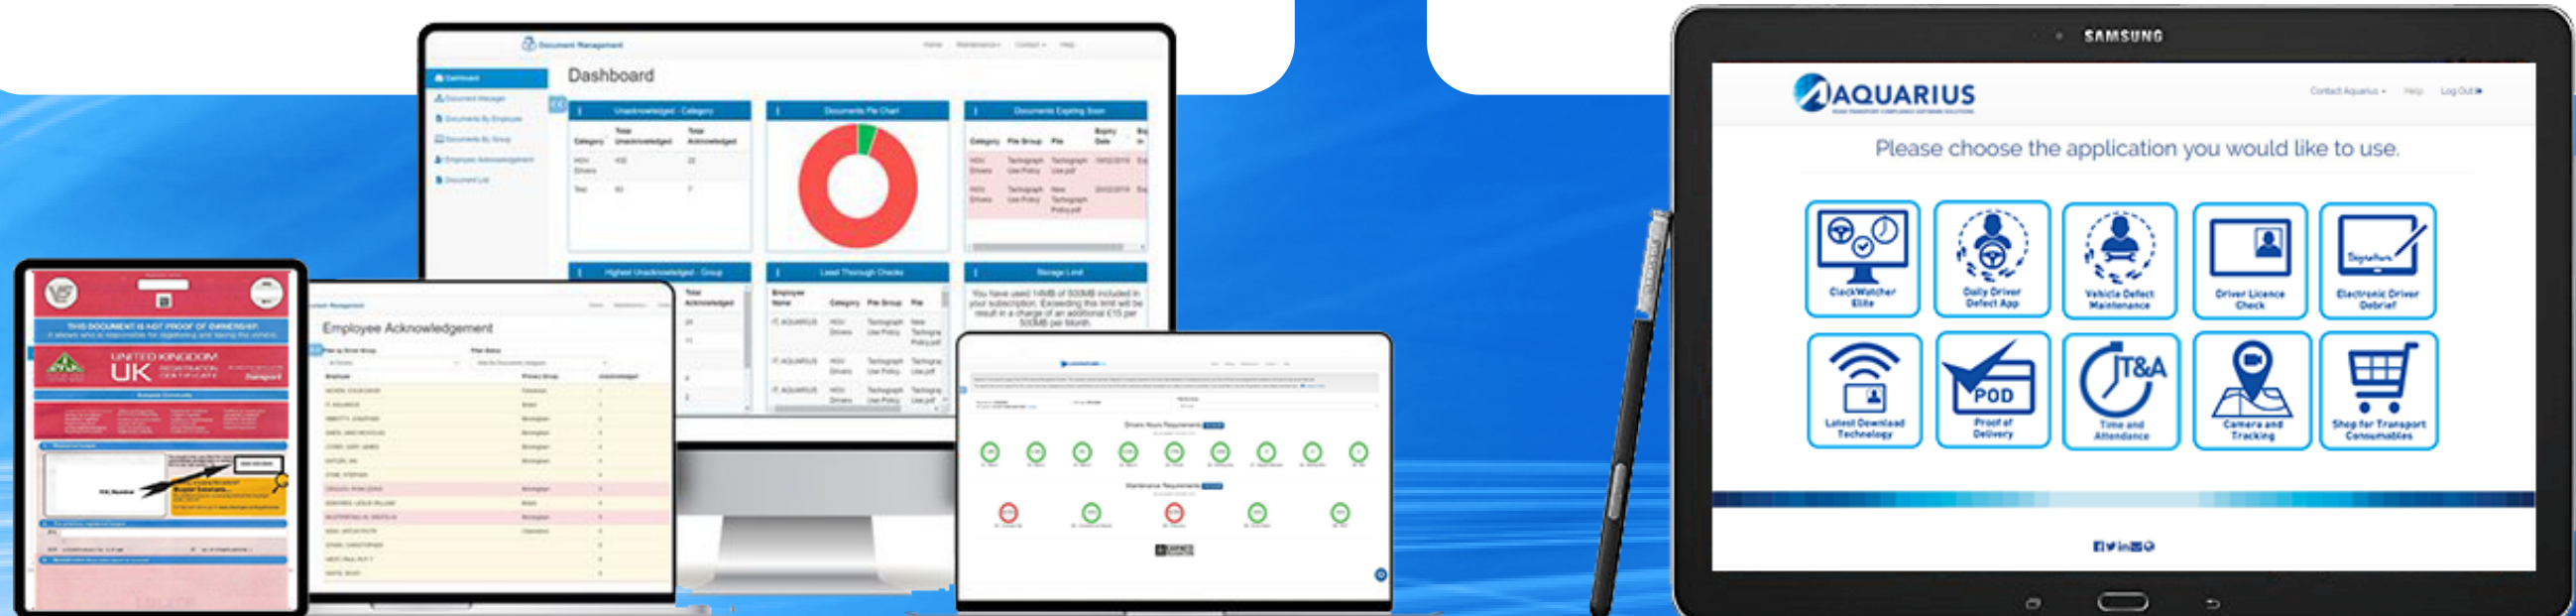

## Customer service is key

It is essential that customers receive the best service possible and at Aquarius IT, having our team of developers and compliance experts in-house ensures that a customer enquiry can be actioned swiftly and effectively.

## One dashboard

Our integrated services provide a powerful management and reporting tool and include:

- Tachograph Analysis
- Asset Maintenance
- Daily Driver Defect Reporting App
- Electronic Driver Debrief - eSIGN
- Document Management
- Remote Downloading
- Time & Attendance
- LicenceCheck
- Cameras & Tracking
- Proof of Delivery

As an IT system provider for Earned Recognition, users are able to report on both the Maintenance and Driving Activity from one system

Helping operators achieve FORS accreditation with exclusive offers for FORS members
